

# infinite by Forever™ firming complex

**Gluten Free**

- Our first ever beauty nutritional supports aging from the inside out
- Reduces the appearance of facial wrinkles, and increases skin’s bounce, flexibility and hydration
- Aids multiple body systems and supports overall energy

Beauty is more than skin deep – it starts with nutrition. Forever’s first exclusive beauty supplement helps you take control of the aging process.

Two small uncoated tablets taken daily, support multiple internal body systems as well as your overall health and skin appearance.

Backed by two clinical studies, French melon provides Superoxide Dismutase, a key player of the antioxidant system to help fight free radical stress.

Patented phytoceramides taken from European wheat\*\*, replenish a key component naturally found in the skin that plays a crucial role in moisture-barrier function to support skin hydration and anti-aging.

Taking collagen orally has shown to reduce the appearance in the depth of facial wrinkles and increase skin’s bounce, flexibility and hydration. Finally, Vitamin C helps reduce tiredness and fatigue as well as contributes to normal collagen formation.

This beauty from the inside approach is a revolutionary development in anti-aging and is what all other anti-aging systems are missing. Firming complex works together with firming serum and other topical products in the infinite by Forever™ line to assemble the ultimate weapon against skin that appears dull, sallow and tired.
